## 1. Academic Record

Te Kura needs to confirm the student's academic record to date with their previous school. The principal or class teacher from the previous school must complete a student educational profile if requested. If the student has been home-schooled, the family must provide details. The privacy statement below explains who will have access to this information. If you have any concerns, please contact us.

## 2. Privacy

Te Kura is required to collect personal information from students in order to comply with obligations laid down by the Ministry of Education and the Education Act 1989. This information will be used to provide for the educational and general advancement of the student and for the purpose of carrying out the activities of the school.

The school may also provide this information to other third parties, where the information relates to the education, health, welfare or safety of the student, both during and after enrolment at Te Kura. These third parties include government agencies such as the Ministry of Education, New Zealand Qualifications Authority, the Ministry of Social Development, and online education providers which Te Kura recommends as a beneficial educational resource supplementary to its own courses. Student name, identification number and email address, and the email address of the parent/caregiver/guardian of the student, may be provided to these online providers to facilitate student registration on their sites. By submitting an application for enrolment, students authorise the school to disclose such personal information to third parties in accordance with this privacy statement.

Under the Education Act 1989 and the National Administration Guidelines, parents and guardians have the right to access information directly relating to matters concerning the education of their child/student.

Under the Privacy Act 1993, any other personal information about a student held by Te Kura can only be released to the student. Personal information about a student will only be released to another party, including parents and guardians, with the student's written permission or where the Privacy Act provides for an exception to be made.

You have the right to access and request corrections to personal information held by the school. Please put your request in writing to the school's Privacy Officer.

Any requests for personal information about a student not directly related to their education should also be put in writing to the school's Privacy Officer.

Please advise the school if you have any concerns about the information held by us.

See our [Privacy](#) section for more details.

## 3. Authentication

Te Kura has to ensure that work presented for assessment is the student's own work. The Student or Supervisor of a student enrolling in courses that lead to New Zealand national qualifications must ensure that they/the student understands that work sent in for assessment must be their own. Plagiarism detection software may be applied to any work presented for assessment.

This means:

- The student undertakes to present their own work for assessment. If working online in Te Kura's online learning environment (My Te Kura), the student accepts an authentication statement at the start of each course. The student is also reminded of the authentication requirements for all assessment activities at the time of submission.
- In courses that lead to New Zealand national qualifications, assessment activities may require supervision. These will be accessed by or provided to the Supervisor, must be done with the Supervisor, be completed under test conditions, and the completed assessments returned to Te Kura by the student in the designated dropbox in My Te Kura. The student must complete the online authentication statement and supply their Supervisor's name and the relationship of the Supervisor to them when uploading the assessment activity to the designated dropbox in My Te Kura. The same procedure applies to examinations. For practice exam results to be used as derived grades, the exam conditions must meet NZQA requirements by having an Exam Supervisor who is independent of the student and their family. The Supervisor's identity and relationship to the student must be verified by a person who is recognised as having standing in the community.

Agreement to the declaration statement in the student's enrolment application is confirmation of this.

## 4. Information Communications Technology

The following Te Kura Information Communications Technology (ICT) Student Use Agreement is for the protection and safety of students enrolled at Te Kura.

When using ICT it may not always be possible for Te Kura to filter or screen all inappropriate material. For a guide to the range of material that Te Kura would regard as inappropriate, go to the [Netsafe](#) website.

Agreement to the declaration statement in the student's enrolment application is confirmation of this.
